* Difference in value between Principal Amount and Market Value may be due to timing of purchase. Some of these investments may have been purchased when interest rates were low. Principal amount also indicates PAR (face) value and does not reflect whether investment was purchased at a discount or premium. As interest rates increase or decrease the value of the investment will decrease or increase accordingly. The City's investment intention is to hold the investments to maturity thereby receiving PAR value at maturity unless the City will realize a profit by liquidating the investment prior to maturity date.

(1) Denotes investments with a maturity greater than one (1) year.

(2) Market value obtained from the Principal Portfolio statement issued by Union Bank of California, Redwood City's third party administrator.
