

DEMOLITION PERMITS

Building, Infrastructure and Transportation Department

Redwood City, City Hall, 1017 Middlefield Road, P.O. Box 391, Redwood City, CA 94064

THE CITY OF REDWOOD CITY REQUIRES THAT THE FOLLOWING ITEMS BE SUBMITTED/COMPLETED PRIOR TO ISSUANCE OF ANY DEMOLITION PERMIT:

- Clearance from PG& E for appropriate gas and electrical disconnection (*see attached paper work*). Paper work needs to be submitted to PG&E.
- Bay Area Quality Management District review ("*J Number*" issued, *see attached paper work*). Paper work needs to be submitted to the Bay Area Quality Management District.
- Permits to demolish gas stations require clearance from:
 - San Mateo County Health Department, (650) 363-4305; and a
 - Tank Removal Permit from the Redwood City Fire Department, (650) 780-7400
- Permits to demolish garages require a Building Permit to replace the demolished garage before a demolition permit can be issued.
- Tree Removal Permit for the removal/pruning of Heritage Trees or a Tree Protection Plan for the protection of existing trees (*includes trees on the subject property, as well as trees on adjacent properties*). Contact Public Works Services at (650) 780-7407.
- Fill out Building Permit application and submit with a fully dimensioned, detailed site plan. A pre-site inspection will be done when applicable. (*See Sample Site Plan along with requirements.*)
- Planning Review (*check for historic status of a structure or other issues*).
- Once the J Number authorization, PG&E disconnection, and Tree Removal/Pruning Permit or Tree Protection Plan are provided to the Building Department a Building Permit can be issued.
- The Building Department will send a notice to the Meter Shop in the Water Department to notify them of the demolition.

RESIDENTIAL SITE PLAN CHECKLIST

Building, Infrastructure and Transportation Department
Redwood City, City Hall, 1017 Middlefield Road, P.O. Box 391, Redwood City, CA 94064

All permit applications for residential projects shall include a scaled and dimensioned site plan. All existing and proposed structures shall be represented. For most residential projects, the recommended scale is 1/8 inch = 1 foot. This checklist was designed as a guide to help ensure plan completeness.

Parcel:

- Ø Parcel boundary with dimensioned property lines
- Ø Vicinity map & North arrow
- Ø Address, Assessor's Parcel number, and zoning district
- Ø Public right-of-way (street, sidewalk, curb, gutter, alleys, easements, etc.)
- Ø Emergency/fire access
- Ø Trees: diameter, dripline, and species (including trees on adjacent properties)

Building:

- Ø Existing and proposed building footprint with all setbacks
- Ø Building projections such as bay windows, fireplaces, porches, etc.

Other Improvements:

- Ø Driveway, parking and vehicle circulation areas
- Ø Any improvements in the public right-of-way
- Ø Sheds, arbors, decks, patios and all other paving and accessory structures

Utility Services:

- Ø Electrical meter service capacity and location
- Ø Gas meter and service piping
- Ø Water and sewer service line sizes and locations
- Ø Fire hydrants and flow (new construction only)

Grading and Drainage:

- Ø Provide and show on plans proper grading and drainage design for the lot, roofs, and all other impervious area. See Engineering Standards for acceptable design criteria.

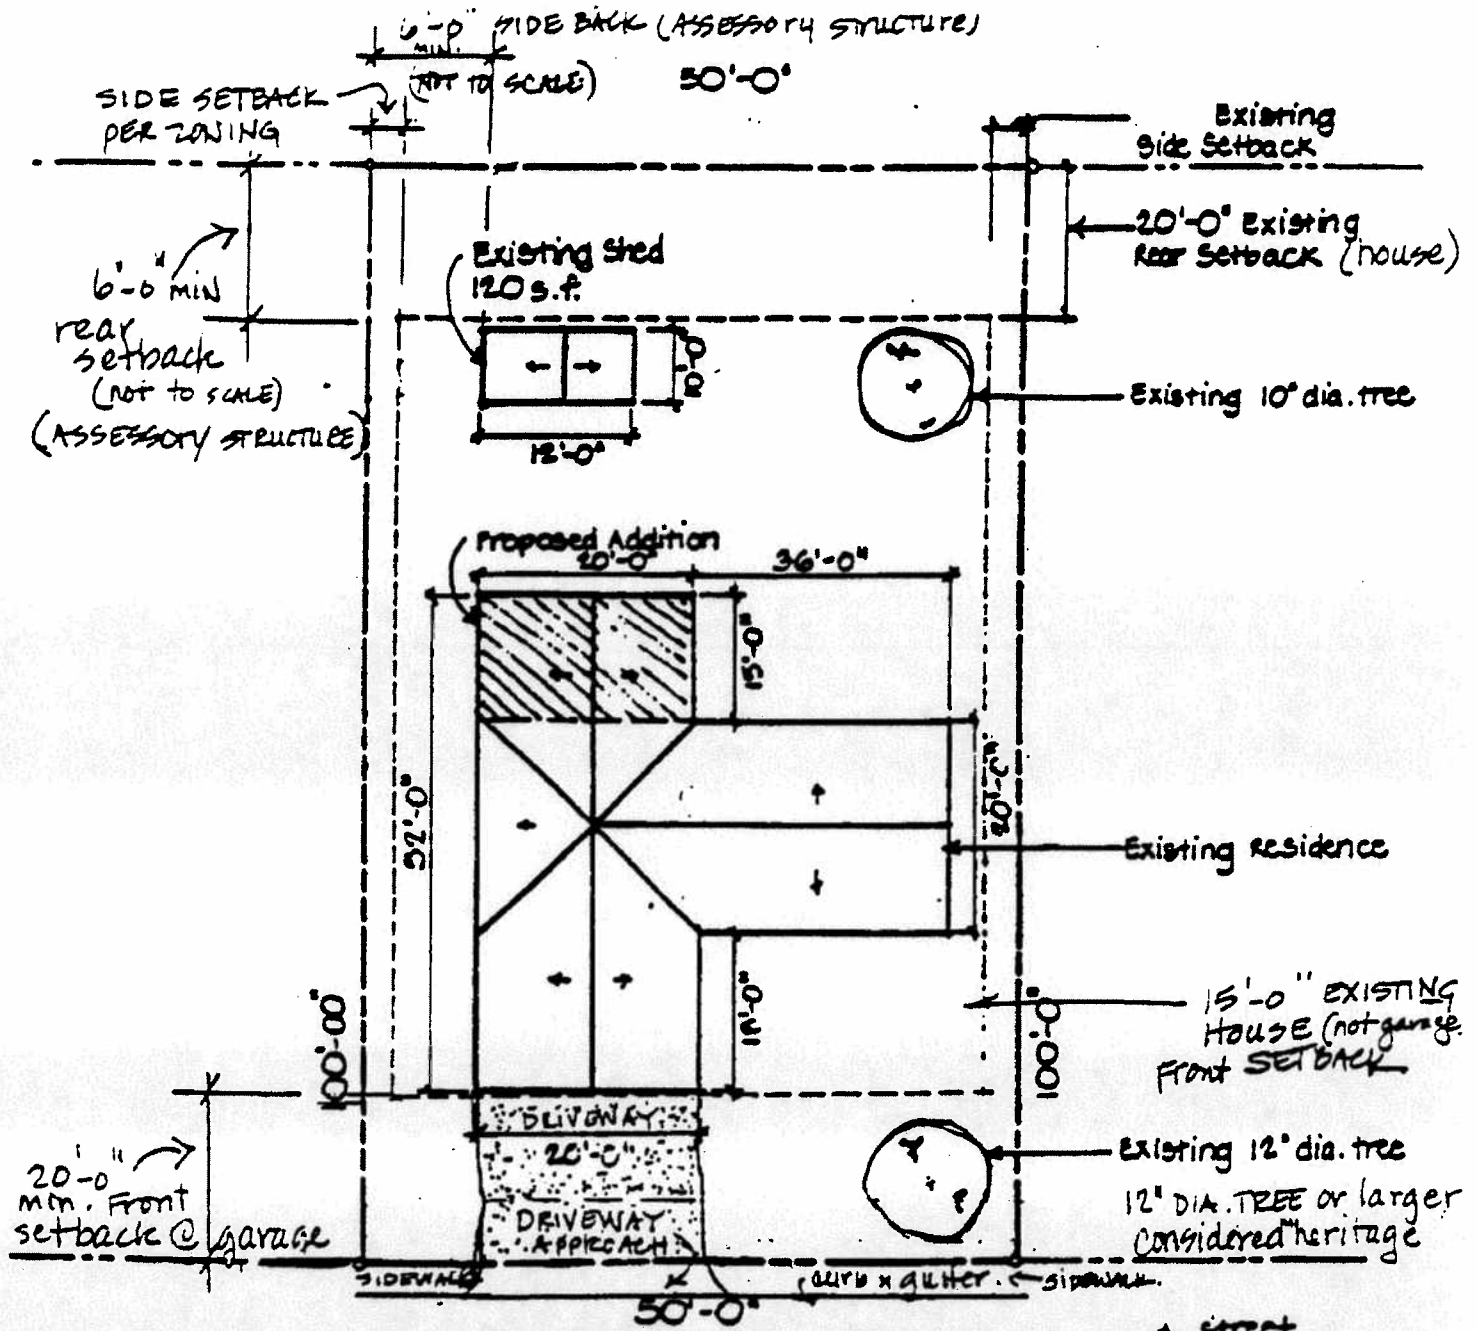

Data to be shown on Plan Cover Sheet:

- Ø Total number of dwelling units and total number of bedrooms/unit
- Ø Total number of parking spaces provided (tandem spaces are not counted)
- Ø Current building area (habitable and non-habitable, first and second floors)
- Ø Proposed building area (habitable and non-habitable, first and second floors)
- Ø Lot coverage calculation (first floor only, includes all structures on the lot)
- Ø Construction type (e.g. V-N) and occupancy type (e.g. R-3, R-1)

Sample Lot Coverage Calculations:

	<u>Square Feet</u>
Lot size	6,000
Existing first floor building area	1,000
Proposed first floor addition	500
Total building coverage = existing + proposed	1,500
Lot coverage = Lot size/total building coverage	25%

Please See Sample Site Plan on Reverse Side

EXISTING SITE PLAN

1/4" = 1' SCALE

ITEMS NEEDED ON YOUR SITE PLAN

- Existing House, Dimensions
- Accessory Buildings, Dimensions
- Mets and Bounds, Dimensions
- Trees, size
- Proposed New Construction, Dimensions
- Setback Information
- North Arrow, Scale
- Locate alleys, easements, right-of-ways, etc.
- Property line may not start at the sidewalk.

DEMOLITION NOTICE

TO:

Ron Vairora, Meter Shop
Water Department

FROM:

Building Division
City of Redwood City

RE:

Demolition Permit at: _____

Issue Date: _____

PERMIT #: _____

Pacific Gas and Electric Company

1970 Industrial Way
Belmont, CA 94002
(800) 743-5000

ATTENTION: PERMIT DEPARTMENT DEMOLITION

To whom it may concern:

This is to verify that the gas and electric facilities at: _____

Has been/will be disconnected by: _____

New Business Representative

Contractor

This Advisory is provided to inform you about activities of the Air District which may affect your operation. It will help you achieve and maintain compliance with applicable air pollution regulations.

**ATTENTION: ASBESTOS DEMOLITION & RENOVATION CONTRACTORS
AND BUILDING DEPARTMENTS**

SUBJECT: OPERATION FEES INCREASE

On June 16, 2010, the Air District Board of Directors approved a new fee schedule for asbestos operations (demolitions and renovations). The new fees apply to notifications postmarked on or after July 1, 2010. Full payment of fees is required at the time of notification submittal. The fee schedule for Asbestos operations is on the reverse side.

If you have any further needs, please contact the Air District as indicated below:

-  For questions about this Advisory, contact the Asbestos Technician at (415) 749-4762.
-  For a copy of this Advisory, see www.baaqmd.gov/advisories.
-  For a copy of Regulation 3, see: www.baaqmd.gov.
-  For a copy of asbestos notification forms, see: www.baaqmd.gov.

Kelly J. Wee
Director of Compliance and Enforcement

Commercial, Multi-Family Dwellings (more than 4 units), Government Buildings, & Schools

<i>Square Feet Renovation</i>	<i>Linear Feet Renovation</i>	Fee
100-159 or 35 cu ft	100-259	\$330

Required Information

Payment must be received before J# will be assigned. See Schedule L of Regulation 3 for appropriate fees.

Payment type: Check Cashier's Check Money Order Credit Card (Visa, MasterCard Only)
(payments, other than credit card payment, must be mailed or delivered to: 939 Ellis St., San Francisco, CA 94109)

I certify that the above information is correct and that I will comply with all of the requirements of the BAAQMD's regulations, as well as all other applicable federal, state and local requirements.

Signature of Contractor or Person Performing Demolition: _____

GENERAL INFORMATION

- ◆ This notification form shall be used to notify the BAAQMD of a **demolition** operation only. Notification is required for every demolition. All boxes must be completed. Appropriate fee payment must accompany each notification. Notifications may be faxed to (415) 749-4658, but job numbers will not be issued unless accompanied by a valid credit card authorization or until a valid check, cashier's check or money order for applicable fees is received.
- ◆ Notification shall be provided to the District at least 10 working days prior to commencement of demolition, or as early as possible prior to commencement of emergency demolition. The notification period will not start until a complete notification is submitted (see above).
- ◆ An Acknowledgement Letter is mailed to the contractor/person listed within 3 days of receipt of a complete notification. This should be checked for accuracy of data.
- ◆ If the job is postponed or cancelled, the District **must** be notified of a revision; the Acknowledgement Letter should be used to fax or mail the revision information. When cancelled, a cancellation fee will apply.
- ◆ For specifically-defined "Emergency" conditions, the 10 working day period will be waived. Notification must be made by fax, and the job number will be issued if accompanied with a faxed copy of a valid check, cashier's check or money order.
- ◆ For 4 or fewer unit residences, the 10 working day period may be reduced to 72 hours for an additional fee.

INSTRUCTIONS

- ◆ **SPECIFIC LOCATION OF PROJECT:** Identify where the demolition is taking place if the site contains more than one building.
- ◆ **START AND COMPLETION DATES:** The start date is the date on which demolition of the facility or structure commences. Any revision to the start or completion dates must be submitted prior to the previously notified date(s). Under no circumstances may the revised start date be earlier than the 10th working day following the postmark or fax date of the original notification. If the start date is unknown, enter an estimated start date and revise the notification when the actual start date is known, but not later than the estimated start date.
- ◆ **FIRE TRAINING:** Reg. 11-2-206 includes "intentional burning" in the definition of demolition. Notification is required, the 10 working day requirement must be met and all Asbestos-Containing Material (ACM) >1% must be removed prior to fire training. The District's Open Burning Notification form must also be filed and the applicable requirements of Regulation 5 must be met.
- ◆ **SURVEY REPORT:** Provide information showing that prior to commencement of the demolition, a survey was performed to determine the presence of Regulated ACM (RACM). Indicate if there was/was not suspected ACM.
- ◆ **GOVERNMENT ORDERED DEMOLITION:** If an "Emergency" demolition (see above) is the result of a state or local agency declaring the building a public nuisance or structurally unsound and in danger of imminent collapse, a copy of the written order must accompany this notification.

FEES APPLICABLE TO DEMOLITION OPERATIONS (FROM REGULATION 3, SCHEDULE L)

Demolition **conducted at a single family dwelling** is subject to the following fee:

OPERATION FEE: \$56

Cancellation: \$56 (100% of fee) non-refundable, for notification processing.

Demolition **conducted at a single family dwelling or multiple family dwelling with four or fewer units with 72 hours instead of 10 days prior notice (excluding emergencies)** is allowed upon payment of the following **additional** fee:

OPERATION FEE: \$390

Demolition, **other than those conducted at a single family dwelling**, is subject to the following fee:

OPERATION FEE: \$234

Cancellation: \$156 of above amount non-refundable for notification processing.

Demolition conducted for the purpose of **fire training** is exempt from fee.

SURVEY REQUIREMENTS FOR DEMOLITION OPERATION (FROM REGULATION 11, RULE 2)

303.8 Surveys: Except for ordered demolitions, prior to commencement of any demolition or renovation, the owner or operator shall thoroughly survey the affected structure or portion thereof for the presence of asbestos-containing material, including Category I and Category II nonfriable asbestos-containing material. The survey shall be performed by a person who is certified by the Division of Occupational Safety and Health, and who has taken and passed an EPA-approved Building Inspector course and who conforms to the procedures outlined in the course. The survey shall include sampling and the results of laboratory analysis of the asbestos content of all suspected asbestos-containing materials. This survey shall be made available, upon request by the APCO, prior to the commencement of any RACM removal or any demolition. This subsection shall not apply if the owner or operator asserts that the material to be renovated is RACM and will be handled in accordance with the provisions of Sections 11-2-303, 304 and 401. The requirement for certification by the Division of Occupational Safety and Health shall not apply to in-house health professionals within a specific nonasbestos related company who perform occasional surveys only for that company as part of their regular job responsibilities

8.1 When a structure, or portion thereof, is demolished under an ordered demolition, the survey must be done prior to, during, or after the demolition but prior to loading or removal of any demolition debris. If the debris contains regulated asbestos-containing material, all of the debris shall be treated as asbestos-containing waste material pursuant to Section 11-2-304.

8.2 For renovation or demolition of residential buildings having four or fewer dwelling units, a survey is not required. A sample and test of the material will be required only when any of the following will be removed or disturbed: heating, ventilation, air conditioning ducting and systems; acoustic ceiling material or acoustic plaster; textured or skim coated wall surfaces, cement siding or stucco, or resilient flooring. Where the material is found to contain greater than 1 percent asbestos and is friable, the material must be handled in accordance with Section 11-2-303.

Asbestos - Frequently Asked Questions

Question: What is asbestos?

Answer: Asbestos is a naturally-occurring mineral. Chrysotile (white asbestos) is the type most commonly used in structural applications. Asbestos is heat resistant, very strong, and has remarkable insulating properties, making it a desirable material in construction.

Question: What are the health effects of asbestos exposure?

Answer: There are three exposure routes for asbestos fibers: (1) inhalation via the respiratory system (2) ingestion via the mouth associated with asbestos fibers in drinking water and (3) skin contact. Asbestos has been known to cause a number of disabling and fatal diseases such as asbestosis, lung cancer, mesothelioma and pleural plaques. There is no safe level of exposure to asbestos; therefore, all exposure to asbestos should be avoided.

Question: The building department requires a District job number (J#) prior to structural demolition. What is a job number?

Answer: Because asbestos has been used in many structural applications, District Regulation 11-2-401.3 requires that for every demolition or for every renovation involving the removal of 100 sq ft/lin ft or greater of Regulated Asbestos Containing Material (RACM), a notification must be made to the BAAQMD at least 10 working days prior to commencement of demolition/renovation. For residential buildings of four or fewer dwelling units, 72 hour prior notification is acceptable with the payment of an additional fee (see schedule below).

The District provides a form to use for notification of the two types of jobs. To obtain a Demolition or Renovation form, [download it](#) or call BAAQMD staff at (415) 749-4762. Information obtained from the form is stored and a job number (J#) is assigned to each demolition or renovation job that is notified. The J# is proof that the notification requirements of District Regulation 11-2 have been met. This information then allows BAAQMD staff to conduct an inspection to determine compliance with all other requirements of Regulation 11-2.

Question: What is the difference between demolition/renovation?

Answer: BAAQMD Regulation 11, Rule 2 defines demolition as the wrecking, dismantling or intentional burning of a structure. Renovation is the removal of Regulated Asbestos Containing Material (RACM).

Question: Is there a fee associated with a job number (J#)?

Answer: Yes. District Regulation 3, Schedule L imposes a fee as authorized by the California Health & Safety Code.
