## Designing the Inevitable: Creating a High-Density and Livable Inner City

Featuring the six-term Vancouver City Councillor

### Gordon Price

Director of the City Program  
at Simon Fraser University, Vancouver BC

Gordon Price, a 15-year elected official in Vancouver, B.C.,  
believes that urban regions can be both dense and livable.  
Using his own city as an example, Price will illustrate the unique  
conditions that resulted in the central area of Vancouver growing  
faster than any other place in North America during the 1990s.  
He'll describe the processes, planning and participants who made  
it possible. And he'll share some of the mistakes made and  
lessons learned.

**Wednesday, April 5, 2006**

**6:00 — 7:45pm**

Doors open at 5:30pm

No-host bar available

**Please note:** The Forum will be held on the first Wednesday of each  
month through May 2006.
