Secrets of Sustainability: Seven Steps for Designing and Developing Sustainable Places

Featuring Architect and Urban Designer

Steve Coyle, AIA

Principal, HDR/LCA + Sargent, San Francisco

The ultimate goal of sustainability is to construct a new form of community which balances human needs with natural resources. This presentation will examine seven strategic and practical ways to make our buildings, blocks, neighborhoods and communities more sustainable, while reducing air pollution, conserving energy, and improving housing, employment, mobility, and recreational choices.
