The next in this exciting series will focus on

Sustainably Modern Architecture

Featuring architect and author

Steve Mouzon

Principal and Co-Founder of
The New Urban Guild, Miami Beach, FL

Steve Mouzon believes that traditional/classical architecture is the only architecture that remains "of our time" through the passage of time, thus being the only truly sustainable modern architecture. Mr. Mouzon will address why it is perfectly acceptable to use traditional and classical architecture in new projects and will explain how to get the details right so that we may get the same enjoyment out of new structures as we do out of our cherished historic buildings.

Wednesday, May 3, 2006

6:00 — 7:45pm

Doors open at 5:30pm

No-host bar available

Please note: The Forum will be taking a break during the summer months and will resume as usual in October.
