Tales of Transformation: From Vision to Reality

Featuring the inspiring and engaging speaker

Susan Moeller

Redevelopment Manager, City of Redwood City, CA

Susan Moeller has been involved in the transformation of two cities in the last 14 years: Cathedral City and Redwood City. What role does the public sector play in revitalizing California communities? What are the leadership requirements for a vision to be realized? How do you achieve a “vision” which begins merely as a series of renderings? How do you maintain a commitment to success over multiple years and despite seemingly insurmountable obstacles? Susan Moeller will address these questions and more and will share practical ideas and tools for “managing from the middle” and distinguishing the “soul” from the “mechanics” of achieving good city design.
