

REPORT

To the Honorable Mayor and City Council
From the City Manager

October 27, 2008

SUBJECT

Final Acceptance – Master Water Meter Replacement Project

RECOMMENDATION

Accept, by motion, the Master Water Meter Replacement Project, and authorize the release of bonds and retention according to city procedures.

BACKGROUND

On May 12, 2008, the Council awarded the construction contract for the Master Water Meter Replacement Project to West Valley Construction, Inc. of San Jose. The contract was awarded for a base bid of \$285,000.00. The project is successfully completed in accordance with the plans and specifications. No change orders were issued. The final contract amount is as awarded.

Four water meters that were outdated and no longer serviceable were replaced. The meters are part of the public distribution system, owned and maintained by the City, and service Oracle and Peninsula Landing. The work of this project consisted of replacing existing water meters and appurtenances with the addition of backflow prevention devices where needed. Pavement and landscaping that had been disturbed as a result of the work were restored. Engineering staff performed as both project designer and construction administrator on this project.

ALTERNATIVES

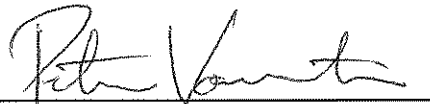

Council may choose not to accept the project or authorize the release of bonds and retention which would be contrary to the terms of the contract, prior action by Council, and the public contracting code.

FISCAL IMPACT

Funds for this project have been approved and appropriated in the budget for Fiscal Year 2007/08--Water Fund Capital Projects, Master Meter/Backflow Prevention.

Jimmy Tan, P.E.
Senior Civil Engineer

Peter Vorametsanti, P.E., Acting Manager
