

FARM HILL BOULEVARD STREET IMPROVEMENT PROJECT

*The City of
Redwood City
invites you to an open
house to see proposed
designs for improving
Farm Hill Boulevard
and Jefferson Avenue.*

Please join us for one of two public open houses for the Farm Hill Boulevard Street Improvement Project.

The City took input from the June community meeting and developed designs to improve conditions for people walking, biking, and driving on Farm Hill Boulevard.

Please come review the concepts and provide staff with feedback. Staff anticipates taking a recommendation to the City Council to consider a pilot project, pending the results of this public outreach effort.
