

## **DOCKTOWN MARINA UPDATE**

**MARCH 1, 2018**

This past Monday, February 26, the City indicated its intent to extend Docketown tenancies through April 2018 or June 30 for tenants with school-age children. This extension was consistent with our efforts to assist tenants with relocating vessels to the municipal marina, another marina, or land-based housing.

However, due to a legal action filed against the City following that extension, any further City efforts are temporarily on hold pending judicial resolution. We expect this to take several weeks, and will update tenants as soon as possible.
