

Bike & Ped Safety Improvement Study: El Camino Real between Maple and Charter Streets

Protected Bike Lane Pop-up Event

Join us Saturday, Oct. 20 | 10 a.m. - 1 p.m.
Cedar Street, between Lathrop Street and
El Camino Real

COME EXPERIENCE A POP-UP PROTECTED BIKE LANE AND SHARE YOUR INPUT!

This pop-up bike lane demonstration will help residents, visitors, and city officials learn more about the potential look and feel of a permanent protected bike lane in this location. As the City of Redwood City develops conceptual improvement plans for El Camino Real, the pop-up lane will demonstrate the potential for improving safety and comfort for those who bike on the corridor!

Come out and see what we've been working on to improve safety within this study segment!

For more information or to share your thoughts online, please visit our project website at www.redwoodcity.org/elcaminoplan or send an email to elcamino@redwoodcity.org
