Task Force Member’s Individual Comments on Five Topics

- Open Space and Recreation: Types and Definitions
- Water-oriented Recreation
- Floating Communities
- Development Density and Intensity
- Blomquist Street
The View From Docktown
Orlene Chartain
Open Space

- Separate wetlands from community open space
- Water Recreation: human, sail, motor,
- Land Recreation: active and passive
- Compatible with birds and wildlife
Open Space

• Having Bair Island next door gives us more flexibility.
• Preserve, restore and create wetlands at the Maple Street Ponds
• Granite Rock waters, and part of Ferrari Ponds may offer other opportunities
Open Space

Protect Birds and Wildlife

• Docktowners live in harmony with birds and wildlife

• We think everyone else should too
Open Space

Public Access

• Encourage public use of waterways
• Boat ramps and rentals
• Open space at water’s edge
Recreation

A balance of active and passive play spaces that complement the waterfront environment.
Recreation

Water Sports

• Kayaking, Canoeing and Rowing
• Sailing
• Motor Boating
• Need public launch ramps and rental facilities with soft, low freeboard
Floating Communities

- “Preserve existing, and accommodate new floating communities”
- Work with State Lands and the legislature to keep Docktown on the creek

Preserve Docktown
Floating Communities

**Three Locations**

- Self-selecting over time
- Redwood Creek
- Steinberger Slough (near BIAC)
- Ferrari Pond

Preserve Docktown
Floating Communities

- We’ve been here for half a century
- Have always paid rent to the city
- City has always known
- State Lands has also known
- Should be grandfathered in Preserve Docktown
Floating Communities

- Docktown is an affordable, close knit neighborhood
- Active community life

Preserve Docktown
Floating Communities

- We are stewards of the Creek
- Removing thousands of pounds of trash.

Preserve Docktown
Development Type and Intensity

Things that float!!!! Homes, shops, restaurants...

- Landowners are entitled to profits.
- Housing and commercial development balanced with open space
Development Type and Intensity

- Housing and shops to scale with the location.
- Don’t make any Inner Harbor resident homeless.
Traffic Circulation

- Public transit
- Bay trail and water trail
- Boardwalk along creek
- Water taxi
- Enough parking for all usages
Work with State Lands and the Legislature to Grandfather Docktown
Task Force Confirmation of Plan Scenario
Levels of Agreement

1. Unqualified “yes” to the decision.

2. Decision is perfectly acceptable. Best of real options that are available to Task Force.

3. Can live with the decision; not especially enthusiastic about it.

4. Do not agree with the decision but willing to support because trust the group’s wisdom.

5. No clear sense of unity in group. Need to do more work before mutual agreement can be reached.

6. Do not agree with the decision. Need to register my disagreement.
