The City's investment policy requires that approximately 50% of idle funds be placed in liquid investments, not more than 50% of idle funds be invested for more than one year, and not more than 25% of idle funds be invested for more than two years. Based on the City's current investments:

Investment Term	Policy Requirements	Actual
Liquid (minimum)	\$ 109,799,395.55	\$ 177,730,581.10
With maturity greater than one year (max)	\$ 109,799,395.55	\$ 120,080,400.00
With maturity greater than two year (max)	\$ 54,899,697.78	\$ 102,093,600.00

Currently, more than 25% of idle funds are invested in securities that will not mature for two years or longer. This is the result of three-year callable bonds, purchased due to their higher yield, being called early as interest rates change, thus restarting the term as these funds are reinvested.

The investment brokers used to purchase securities for the City this month were Cantor Fitzgerald, Mischler Financial Group, and Morgan Stanley Smith Barney.

As of April 30<sup>th</sup> the City has sufficient liquid resources available to meet expenditure requirements for the next six months.

\* Difference in value between Principal Amount and Market Value may be due to timing of purchase. Some of these investments may have been purchased when interest rates were low. Principal amount also indicates PAR (face) value and does not reflect whether investment was purchased at a discount or premium. As interest rates increase or decrease the value of the investment will decrease or increase accordingly. The City's investment intention is to hold the investments to maturity thereby receiving PAR value at maturity unless the City will realize a profit by liquidating the investment prior to maturity date.

(1) Denotes investments with a maturity greater than one (1) year.

(2) Market value obtained from the Principal Portfolio statement issued by Union Bank of California, Redwood City's third party administrator.
