

# Mixed-Use Live/Work Zoning Amendment

The City of Redwood City is considering amendments to the Mixed-Use Live/Work (MULW) zoning district, such as:

1. community benefits in exchange for increased height & density (up to +2 stories & +20 du/ac)
2. more flexibility in allowed uses (permitted & conditional)
3. simplified standards for live/work units

We hope to complete these amendments by May of 2019
