<td>Medicaid eligibility for immigrants has not changed. Emergency Medicaid is available regardless of immigration status, but applicants must meet their state’s other Medicaid eligibility requirements, such as low-income, age, pregnancy, disability, etc. For example, in some states Medicaid does not cover a non-pregnant adult without disabilities or children. CHCs provide primary and preventive health care to everyone regardless of their immigration status or ability to pay. Immigrants who are lawfully present may be eligible to buy subsidized health insurance in the Marketplaces.</td>
<td>USCIS announced that testing, prevention, and treatment for COVID-19 will NOT be considered in a public charge test. Immigrant families should seek the care they need during this difficult time.</td>

But spouses and children with valid SSNs are eligible for both the first and second rebates if at least one parent has a valid SSN.
